R. MITRA, , for Hsgistrar General, India.

TODAY'S BEST INVESTMENT FOR SMALL SAVERS

NATIONAL SAVINGS CERTIFICATES

Available in three different series, maturing after 5, 7 and 12 years. The yield is 3%, 3.57% and 4.16% simple interest, respectively, at maturity. Thus, in the 12 year-certificates money increases by 50% on maturity. Interest is free of income-tax and super-tax and is not taken into account in arriving at the total taxable income.

The certificates are obtainable from Post Offices doing Savings Bank business in denominations of Rs. 5, 10, 50, 100, 500, 1,000 and 5,000. An individual can invest upto Rs. 25,000 and two joint holders upto Rs. 50,000/-

Deposits accepted in multiples of Rs. 100 upto a maximum of Rs. 25,000 for a single depositor and Rs. 50,000 for two persons jointly. Interest at 3½% per ennum, free of income_tax and super-tax and which is not taken into account in assessing the total taxable income, is paid or remitted to the depositor's address every year. Deposits accepted at offices of the Reserve Bank of India at Bombay, Calcutta, Delhi and Madras and Branches of the Imperial Bank of India at other places transacting treasury business. Deposits are also accepted at all Treasuries in Part 'A' States at places where the Imperial Bank does not transact treasury business and at all Sub-Treasuries in Part 'A' States; also at Treasuries at Bhuj (Kutch), Imphal (Manipur) and Coorg-Mercara (Coorg).

3½%
TEN-YEAR
TREASURY SAVINGS
DEPOSITS

For further information end/or rules governing these investments please write to the Provincial National Savings Officer of your State or the National Savings Commissioner, Gorton Castle, Simia-3.

Fin cases of towns where there has been an abnormal movement of population, it is likely that the population estimates may not be a thesiently reliable for calculating the birth and death rates.

Pigures not available.

Explanation of symbols used:—B.—Births; B.R.—Birth Rate; C.—Cholers; S.—Smallpox; P.—Plague; F.—Fevers; D.D.—Dysentery and Diarrhoes; R.D.—Respiratory Discases; M.D.—Maternal Deaths; D.R.—Death Rate; I.D.—Infantile Deaths (included in total deaths).

REMARKS

The figures of births and deaths shown in this statement for week ending the 18th July 1953, relate to 189 towns with an estimated population of 24,390 thousands. The total number of towns is 296 and their population is 36,140 thousands. Thus 64% of the total number of towns representing 67% of the total population is covered in this statement. The numbers of births and deaths recorded in these towns were 14,452 and 7,144 representing birth and death rates of 30.8 and 15.2 per thousand of population respectively.

(A) States (Parts A & C):—The data here relate to 172 towns with an estimated population of 21,991 thousands. Information about Ajmer, Bihar and West Bengal could not be included. The total number of towns is 250 and their population is 30,790 thousands. Thus 69% of the total number of towns representing 71% of the total population is covered. The numbers of births and deaths ecorded in these towns were 13,286 and 6,564 representing

birth and death rates of 31.4 and 15.5 per thousand of population respectively. The table at the end gives the position by States.

No town recorded a high death rate of 50 or over per thousand of population.

(B) States (Part B):—The data here relate to 17 towns with an estimated population of 2,300 thousands. The total number of towns is 46 and their population is 5,350 thousands. Thus 37% of total number of towns representing 45% of total population is covered. The numbers of births and deaths recorded in these towns were 1,166 and 580 representing birth and death rates of 25.3 and 12.6 per thousand of population respectively.

No town recorded a high death rate of 50 or over per thousand of population.
